

TECHNICAL DATA SHEET

DESCRIPTION
This is a technical data sheet for a Yanmar marine engine. It provides detailed information about the engine's specifications, performance, and maintenance requirements. The document is intended for use by marine professionals and owners of Yanmar engines.

APPLICATIONS
This engine is designed for use in a variety of marine applications, including powerboats, yachts, and commercial fishing vessels. It is a reliable and efficient power source for these types of vessels.

FEATURES
The engine features a number of advanced technologies, including a common rail fuel system and a turbocharger. These features provide improved performance, fuel economy, and reduced emissions. The engine is also designed for easy maintenance and long service life.

OPERATING CONDITIONS
The engine is designed to operate in a wide range of conditions, including high altitudes and high temperatures. It is built to withstand the harsh conditions of the marine environment and provide reliable performance in all climates.

ITEM	UNIT	VALUE	REMARKS
Displacement	liters	1000	
Max. Power	HP	150	
Max. Torque	kgm	100	
Max. RPM	rpm	3000	
Max. Fuel Consumption	liters/hr	100	
Max. Oil Consumption	liters/hr	10	
Max. Altitude	m	1000	
Max. Temperature	°C	50
